Distribution Infrastructure

NATIONWIDE DISTRIBUTION

23 marketing offices & 48,000 distribution outlets across Indonesia

E-COMMERCE CHANNEL

Rose Brand official shop is present in all major E-Commerce platforms

ESG Framework

ISPO Certification

TBLA plantation and mills are adhering to strict ISPO guidelines.

Championed ISPO certification for all our plantations and production facilities.

Green Energy & Recycle

Reduce carbon emissions through the operation of two biogas power plants in Lampung.

All CPO & sugar mill/s and sugar mills use biomass for power generation.

Active participant in Biodiesel initiative, which is a sustainable substitute for regular petroleum.

Social Contributions

Uplift local economy through local cooperatives under the Plasma Program.

Partnering with locals landowners in the conversion of utilized land into productive income-generating plantation.

Sustainability

Apply Good Agricultural Practices (GAP) such as strict zero burning policies.

Maintains a high standard of sustainability practices, for new plantation development and management of existing plantations

Enhancing Sustainability with Eco-Friendly Technologies

METHANE CAPTURE

Utilizing Palm Oil Mill Effluent (POME) to capture methane gas. Effective in not only reducing greenhouse gas emission, but also provide alternative energy. One 60 ton/ hour CPO mill could reduce carbon emission by around 791 ton of CO₂/annum.

ZERO WASTE

TBLA's compost factory utilize all waste from our CPO mills, especially oil palm empty fruit bunches. This is in line with our "zero waste" policy.

BIODIESEL PRODUCER

TBLA is one of the primary participant in Indonesia's biodiesel effort, which has been very effective in reducing greenhouse gas emission, especially from transportation sector, which estimated to be around 24 million ton of CO₂ in 2021¹.
